

Who We Are

The vision of the Wisconsin Association of Mobility Managers (WAMM) is to lead in coordinated mobility solutions and to support the systems and professionals working in the field.

Our mission is to provide opportunities for professional growth through educational and networking events, ongoing peer support and resource sharing.

Core Values

Integrity - We value professionalism and uphold the guiding principles of our association.

Respect - We create inclusion of all through mentoring, delivering on commitment and working together.

Innovation - We learn, share, and encourage our members to help make a difference in transportation solutions today and in the future.

Service - We contribute to our association and stakeholders with sound coordination and strong leadership.

What is Mobility Management?

Mobility Management is an approach to designing and delivering transportation services that starts and ends with the customer.

Mobility Managers teach people how to use transit, educate communities about transportation options, coordinate trips, manage volunteer driver programs, organize van pools, run call centers and much more.

Transportation is essential to almost every activity that takes place within a community. Mobility Managers creatively help individuals find the most efficient, cost-effective way to get where they need to go.
